Summary :

Creative Front-End Developer with 3+ years of experience in designing, developing, and testing responsive web applications using modern technologies. Dedicated to delivering innovative solutions and continuously improving technical skills to excel in Front-End Development.

Skills :

React.js • Next.js • Tailwindcss • Matomo Analytics • TypeScript • WordPress • JavaScript (ES6+) • Git • Docker Jira

Work Experience :

React Developer | TAM

July 2023 – Present (Remote)

Technologies: React • Redux • Next.js • Docker . RTK Query . Tailwindcss . Jira

- Built a tool for seat booking and saved 50k USD for the company.
- Developed and maintained an online seat booking system for **Comedy Pod**, a leading comedy platform in Saudi Arabia.
- Built the system using React, Redux, and integrated features for case tracking, user roles, and real-time updates.
- I had the opportunity to work on over 5 SaaS applications using ReactJS.
- Integrated **Matomo Analytics** into a company project to enable detailed tracking and reporting of user activity.
- Additionally, I contributed to improving the functionality and performance folder applications by refactoring their code.
- To streamline the development process and ensure consistency across projects, I utilized Docker.
- Maintained high-level expertise in React state management strategies.
- Collaborated with project managers to select ambitious, but realistic coding milestones on pre-release software project development.
- Designed customized solutions for proposals to potential customers.
- Documented technical workflows and knowledge to educate newly hired employees.
- Core tools used : NextJS, ReactJS, ReduxToolkit, ReduxToolkit Query, React Router Dom, Mantine, Tailwindcss, Docker, Typescript, React Query, SWR,

React Developer | Kian Alraqmih

Aug 2022 – Feb2023 (OnSite)

Technologies: React.js • Asana • Github • Tailwindcss • Redux

- Worked on a multi-vendor e-commerce application that consist of 3 apps (vendor portal, charity portal, website) using Reactjs, Reduxtoolkit, Reduxtoolkit query, Mantine, Tailwindcss.
- Collaborated on stages of systems development lifecycle from requirement gathering to production releases.
- Discussed issues with team members to provide resolution and apply best practices.
- Worked on multiple projects using HTML, CSS, and JavaScript, developing static websites and interactive user interfaces without the use of React.
- Some of the tools used : ReactJS, ReduxToolkit, ReduxToolkit Query, React Router Dom, Mantine, Tailwindcss

UI Developer | Soft Steps

Dec 2021 – Feb 2022 (FreeLancing)

Technologies: html • css • Js

- Developed and maintained the **Induction Site** for a company, focusing on user-friendly design and seamless functionality.
- Created the **Induction Site** for clinics, ensuring an optimized user experience tailored to the medical sector.
- Worked independently to deliver high-quality, responsive designs using **HTML, CSS, and JavaScript**.
- Ensured both sites were performant and SEO-friendly, with fast load times and adherence to web standards.

React Developer | Rasid Payments

Feb 2023 – Present (Remote)

Technologies: React • Apollo • Next.js • Docker .GraphQL . Tailwindcss . zoho . Wordpress

- Contributed to the development of **Rasid Payments' official website** and integrated **FuturePay** WordPress features.
- Built and enhanced the **aggregation system** and **dashboard** for payment tracking and reporting.
- Worked on multiple **SaaS applications** using React, Apollo, and GraphQL.
- Improved code performance and scalability through **refactoring** and best practices.
- Streamlined development workflows and deployment with **Docker**.
- Integrated payment systems with **third-party services** to expand payment options and enhance usability.
- Collaborated with **cross-functional teams** (design, backend, product management) to deliver high-quality, end-to-end solutions.

Education :

Bachelor's Degree in Statistics and Computer Science

Faculty of Science, Mansoura University – Mansoura, DK - 2022
